## SITE VISIT TO LIFT COVERS AND INSPECT BELOW GROUND TANKS TO ASSESS CURRENT SITE CONDITIONS SITE AT JUNCTION OF STATION ROAD AND BLYTH ROAD, SOUTHWOLD, IP18 6AX

## 1.0 INTRODUCTION

- 1.01.1 JP Chick & Partners Ltd were appointed by Southwold Town Council to undertake a site visit to lift covers and inspect the below ground tanks, in order to assess the current site conditions and provide updated drawings.
- 1.01.2 Prior to the site visit, a Ground Penetrating Radar Survey (GPRS), Utility Mapping and CCTV survey of the current drainage was undertaken, to map these features onto a map of the site. Due to the interference from congested underground apparatus at the site, this has had an affect on locating the exact locations of the below ground tanks, and therefore locations identified as 'possible tank' on the survey drawing. Our site visit and inspection of the below ground tanks by accessing covers and ascertaining the contents of the tanks, has enabled us to update the drawings with the tank numbers and a table detailing the contents, size, diameter and length of each tank, which is shown in table 1 below. The updated drawings are shown on the subsequent pages.

Tank	Contents/ Decommissioned	Size (Gallons)	Diameter (m)	Length (m)
Tank 1	Foam filled (Decommissioned)	500	~1.2m	~1.8m
Tank 2	Thick black engine oil present	500	~1.2m	~1.8m
Tank 3	Accessed but blocked at @~1.0m bgl. Tank was dry	1,000	~1.2m	~3m
Tank 4	Waste Oil	500	~1.2m	~1.8m
Tank 5	Foam filled (Decommissioned)	500	~1.2m	~1.8m
Tank 6	Foam filled (Decommissioned)	2,000	~1.6m	~3.6m
Tank 7	Foam filled (Decommissioned)	2,000	~1.6m	~3.6m
Tank 8	Concrete slab over disused tank- could not be accessed	500	~1.2m	~1.8m
Tanks 9A & B	Oily water	Likely to be 2 x 500 (based on an internal depth of 1.265m measured)	~1.2m	~1.8m
Tank 10	Oily water	Likely to be 500 -1,000 (based on an internal depth of 1.36m measured)	~1.2m	~1.8-3.0m
